**PREPARATION INSTRUCTIONS**

**MICROWAVING:** Place links in a shallow microwave-safe dish. Add 1/2 inch of water. Cover. Microwave for approximately 2 minutes for 1-2 links, 3 to 5 minutes for 4-6 links. Remove, pour off water and let stand 2 minutes before serving. (Because microwave ovens vary, cooking times are approximate.)

**GRILLING:** To avoid splitting open, place links on foil with small amount of water until heated through. Remove foil and brown. When not using foil, turn links frequently (approximately 10-15 minutes). DO NOT PLACE COLD LINKS DIRECTLY ON HOTTEST SPOT OF GRILL.

**PAN FRYING:** Place links in a shallow pan with 1/2 inch of water and cover. Simmer and turn until links are heated through (approximately 7 minutes). To brown, pour off remaining water, remove cover and heat at medium until brown, turning links occasionally.
